----- PRESENTATIONS -----

Long Oral presentation

The time slot for classical oral presentation is 10 minutes (8-minute presentation and 2-minute discussion).

Short Oral presentation

The short oral presentation is designated to stimulate the discussion on posters. Each speaker will present the essence of his work in 3-minute presentation, followed by 2-minute discussion. **The abstracts selected for this session will be also presented as classical printed-out posters.** The poster format is DIN A0 (120cm x 85cm) (height x width). The best poster will be awarded with a dedicated prize.

Elevator pitch format

Selected case reports will be presented in the **“elevator pitch” format**, an innovative, dynamic presentation format aiming at the active interaction with the public. The first part of all authors will have 1 minute to present 1 slide to convince the jury (= audience) of the quality of their work, in order to be selected for the second part and the presentation of additional 5-minute presentation (+ 2min-discussion).

Pecha-Kucha storytelling format (YSN best oral presentation)

Selected abstracts for the YSN Best Oral Presentation will be presented in the innovative **Pecha-Kucha storytelling format**. The presentation consists of 20 slides (exactly 20) and each slide must be shown for 20 seconds. The slides will be shown on auto-advancing mode, i.e. the presenter cannot determine the timing of the slide progression and it is not allowed to introduce additional animation within the slide. Presenting in the Pecha Kucha style is a challenge: a strong presentation is well planned, organized and edited. If you are not familiar with this presentation style, we recommend you to get additional information (more about this format:

www.pechakucha.com/about).

The best presentations will be awarded with a [dedicated prize](#). The prizes will be awarded at the aperitif before the networking dinner on 05.12.2024 from approx. 19.00 hrs. **The presence of the winners is desired.**
